MEMORANDUM FOR: Distribution

FROM:

[redacted]
Director, Requirements and Evaluation Office
Intelligence Community Staff

25X1

SUBJECT:

Intelligence Collector/Producer Seminar on Counternarcotics
[redacted]

25X1

1. Bill Kotapish and I have decided to modify the agenda for the 27 July seminar. Basically, we want to probe deeper into the intelligence needs of our consumers who spoke at the 21 July 1988 NIO/Counternarcotics Warning and Forecast meeting to help both producers and collectors better focus their limited resources and identify areas for future investment. Therefore, we have expanded the attendance of the meeting to include representatives of our consumers. [redacted]

25X1

2. At the seminar on the 27th we will be looking for opportunities to improve US intelligence support related to specific counternarcotics activities (interdiction, law enforcement, and support to international programs) as well as any global initiatives that should be considered within the Community. [redacted]

25X1

3. The revised agenda follows:

- o Introduction
- o Detailed Intelligence Needs for Drug Interdiction
(45 minutes-Focus on Customs, Coast Guard, and NNBS)
 - Possible Near-Term Actions
 - Production
 - Collection
 - Potential Areas for Investment
 - Production
 - Collection

 - Production
 - Collection
 - Potential Areas for Investment
 - Production
 - Collection
- o General Direction Of Intelligence Support: Are We Ready to Meet the Challenges as a Community? (30 minutes)

25X1

4. We apologize to those who have been preparing presentations, but we believe that we will accomplish more by getting right into a discussion as outlined above. We would certainly expect you to make key points from your presentations during the discussions. The success of these seminars, of course, depends on active participation by all parties. We have an opportunity here to do some good, but we need your help.
